

Resources for Businesses

Sullivan County joined Energize NY in 2017, enabling commercial and non-profit property owners to access flexible, customized financing for energy efficiency and renewable energy. Office, hospitality, retail, institutional, multifamily, light Industrial, nonprofits, and commercially-owned residential facilities are eligible. Energize NY offers long-term financing at competitive rates, and the NY State PACE (Property Assessed Clean Energy) Finance mechanism allows for loan repayment for energy-related building upgrades as a special charge on your property tax bill. Energize NY can finance clean energy projects such as: lighting, solar electric, chillers, energy storage, biomass, insulation, energy efficient heating and cooling, smart controls and combined heat and storage. **914-302-7300, option 2**

Community Energy Advisors—Cornell Cooperative Extension Sullivan County

Helping homeowners, small businesses, not-for-profit organizations and multi-family building owners cut energy waste, save money, and live or work more comfortably

Cornell Cooperative Extension of Sullivan County has contracted with NYSERDA through Cornell Cooperative Extension of Dutchess County to help area residents and businesses reduce their energy consumption and energy costs and make informed energy decisions. Cornell's Community Energy Advisors offer free, one-on-one appointments to discuss your energy options. The program is open to all residents, especially households with limited resources facing higher energy costs, homeowners, small businesses, and non-profit organizations.

Find out how you can:

- Reduce your heating and electric bills
- Take charge of your energy budget with a home or business energy assessment
- Access financing and programs that offer free or reduced-cost energy efficiency upgrades
- Start generating clean, renewable energy at your home or place of business

Cornell's Community Energy Advisors can guide you through the process of implementing a clean energy project and connect you with NYSERDA approved energy contractors. They can refer you to a range of programs, including: **Residential Energy, Empower +, NY-SUN, Solar for All, Green Jobs Green NY Energy Study Program, and Clean Heat NY.**

Visit <http://sullivancee.org/energy/community-energy-advisors> or call (845) 292-6180, ext. 127 to set up an appointment with Cornell's Community Energy Advisors.

Regional Clean Energy Hubs Program

New York State is embarking on a transition to an inclusive, clean-energy-powered economy. All residents, businesses, and communities across the State will benefit from this transition and have access to new opportunities that include clean energy careers, home improvements, even rebates for businesses and personal transportation. But there's a lot of information out there, and people may not know where to start.

To help New Yorkers access and navigate these opportunities, NYSERDA created the Regional Clean Energy Hubs. Clean Energy Hubs connect people to the clean energy economy.

Your one-stop shop for access to clean energy opportunities

Your Hub is a team of trusted, knowledgeable, community-based organizations in and from your region of the State. Team members have experience with clean energy, energy efficiency, workforce and economic development, education, health, and housing.

Hubs provide information to individuals, small businesses, and affordable housing owners about the benefits of the clean energy economy, ways to reduce energy use and costs, and how to make more informed energy decisions.

Your Hub can:

- Describe the “clean energy economy” and what it means for communities
- Assist with accessing job training and employment in the clean energy sector
- Discuss a home energy assessment and why it would be useful
- Help someone fill out an application for a free home-energy assessment
- Show what types of energy incentives a person or business may qualify for
- Share information about heat pumps, solar, electric vehicles (EV), and how to access rebates
- Find a qualified contractor to perform clean energy upgrades
- Locate a community solar program and help residents and businesses sign up for it

And more!

Clean Energy Hubs by Region

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and support to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975. To learn more about NYSERDA's programs, visit nyserdera.ny.gov or follow us on Twitter, Facebook, YouTube, or Instagram.
