

## Policy Area II Land Use Planning and Zoning

### Goal:

*Establish regional cooperation in zoning that encourages mixed-use development with design and scale compatible with the existing neighborhood character, while preserving viewsheds, natural resources and environmentally sensitive areas.*

### ZONING

Sullivan County is on the verge of becoming urban with rapid growth and development that will change its character and have an impact on its resources. Balancing growth and preservation of open space channels energy toward support for “concentrated growth zones” or shovel ready sites. Influencing zoning to achieve the County’s vision and community land use goals, objectives and policies could help to avoid the growing pains of development; heavy traffic, strip malls, loss of open space or lack of affordable and workforce housing.

Development decisions made at the local level are critical and influence land use patterns, which affect the County as a whole. Finding the opportunities to encourage growth in areas that support a diversified economy while retaining the qualities unique to the County can be done if local municipalities collectively support a unified vision and have the tools to accomplish them.

Current development patterns often mandate a separation of land uses. Conventional suburban development — which is primarily low-density, single-use development — is a significant departure from the way Towns and Villages had previously been built. Historically, land uses were more integrated and centered on and near a commercial core enabling many people to walk to a store, work or school. This is still evident today, and revitalization efforts are attracting a diverse mix of uses once again, resulting in fiscal and economic benefits, and raising property values and tax receipts.

Through the **Sullivan 2020** planning process, zoning was identified as a positive tool that could be used to encourage appropriate development. Furthermore, existing zoning could be revised to reflect local economic development plans that would balance economic and open space preservation goals. The strategies described in this section could be used as the guidelines for achieving a consistent and coordinated growth pattern through zoning in Sullivan County’s towns and municipalities.

**Policy Area II**  
**Land Use Planning and Zoning**

**Goal:**

*Establish regional cooperation in zoning that encourages mixed-use development with design and scale compatible with the existing neighborhood character, while preserving viewsheds, natural resources and environmentally sensitive areas.*

**STRATEGY 2.1**

Encourage Mixed Use Development.

**Timeframe**

SHORT TERM

**INTERMEDIATE**

LONG TERM

Steps	Leadership Role (C/M/P)	Status (A/P/C)
Use innovative zoning tools, such as overlay districts, Traditional Neighborhood Design (TNDs), Planned Unit Development (PUDs) and Form Based Zoning among others.	C/M	
Convert declining shopping malls, strip centers and vacant buildings into mixed-use pedestrian friendly development by infilling with new buildings and parking structures.	C/M	
Promote walkable communities by installing and repairing sidewalks in new and existing development.	C/M	
Provide amenities such as bus shelters, street trees and furniture to make pedestrian walkways attractive and safe.	C/M	

Leadership Role: C – County M – Municipality P – Partners  
 Status: A – Active P – Pending C – Complete

### Organizations and Programs

- ◆ **Context Sensitive Solutions (CSS)** - [www.dot.state.ny.us/design/css/css.html](http://www.dot.state.ny.us/design/css/css.html)  
A philosophy wherein safe transportation solutions are designed in harmony with the community. The Dept. of Transportation's CSS strives to balance environmental, scenic, aesthetic, cultural, natural resources, community and transportation service needs. Context sensitive projects recognize community goals, and are designed, built and maintained to be sustainable while minimizing disruption to the community and the environment.
- ◆ **Context Sensitive Solutions (CSS)** - [www.contextsensitivesolutions.org](http://www.contextsensitivesolutions.org)  
The *Federal Highway Administration* defines “context sensitive solutions” (CSS) as a collaborative, interdisciplinary approach that involves all stakeholders to develop a transportation facility that fits its physical setting and preserves scenic, aesthetic, historic and environmental resources, while maintaining safety and mobility. CSS is an approach that considers the total context within which a transportation improvement project will exist.

### Organizations and Programs

- ◆ **NYS Department of State Division of Local Government** - [www.dos.state.ny.us/lgss/](http://www.dos.state.ny.us/lgss/)  
The Division of Local Government provides training and technical assistance to local governments and community organizations throughout the state and helps local officials solve problems involving basic powers and duties, public works, municipal organization, planning, land use and regulatory controls, and community development. One of the goals of the Division is to serve as a "one-stop-shop" for New York local governments.
- ◆ **Citizen Planner Program Online** - [www.citizenplanner.msu.edu/online/](http://www.citizenplanner.msu.edu/online/)  
Michigan State University Extension currently offers a classroom-based Citizen Planner Program to address the basic, ongoing education needs of citizens appointed to serve on local land-use planning bodies. As you know, community-based, land-use issues continue to develop and change due to court decisions and new legislation.

### Funding Sources

- ◆ **Shared Municipal Services Incentive Grant Program** -[www.dos.state.ny.us/lgss/SMSI.html](http://www.dos.state.ny.us/lgss/SMSI.html)  
The 2005-2006 New York State Budget established a new competitive grant program whereby two or more municipalities may apply for a grant to cover costs associated with shared services, cooperative agreements, mergers, consolidations, and dissolutions. This webpage provides links to information and documents related to that program.
